**Disclaimer: this publication contains political material**

**Channeling my Buddy, Jack** (He may be gone, but his ideas live on.)

*First of all, as loyal Crapper readers already know, our steadfast loyal and fierce dog, Jack, like all pilots eventually do, has "Flown West." Jack's passing leaves a big hole in our hearts and I'm sure those of many Crapper readers as well. However, all is not doom and gloom, because, before his passing, Jack and I were able to finish the book we had been writing about his life.*

*Other good news is that, crazy as it may seem, I am getting daily thoughts and dreams of how Jack and I would think on various subjects. Therefore, while this happy trend continues, you can yet enjoy Jack's insightful "Dog Opinions" on various Crapper subjects.*

**Jack on Heaven Humor:** "Dad, I ran into a female dog up here in Dog Heaven who had identical twin pups, when she was on Earth, that she named Juan and Jamal." Jack continued to tell me that due to the amazing capabilities in Dog Heaven, the dog even showed him a hologram picture of one of her twins. However, when Jack asked why she only had a picture of one of the twins, she shrugged and said, "Well, once you've seen Juan, you've seen Jamal."

**Jack on TV Advertizing:** "Dad, looking at TV from up here in Heaven it appears that the US population is suddenly 90% Black and Gay."

**Jack on Political Leadership:** "Dad, from up here it looks like the current administration resembles a circus." In my dream I replied, "Yeah if you elect a clown, you can expect a circus."

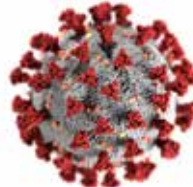

**Jack on Difficult Jobs:** "Dad, how would you like to be the sign language interpreter for a Biden speech?" All I could reply was, "Let's go Brandon!"

**Jack on the importance of the US Constitution:** "Dad, up here in Dog Heaven they say that it looks like many politicians want to change or get rid of the United States' Constitution." I replied, "Jack, protecting us from politicians is precisely why the Constitution was written in the first place."

**Jack on Forest Gump Philosophy:** "Dad, up here in Dog Heaven they had the movie Forest Gump on last night and he said that life like a box of chocolates, because you never know what each day is going to bring" I disagreed and said, "Nope! Jack, life is more like a box of Jalapenos, what you do today can burn your ass tomorrow!"

**Jack on Washington Leadership Failures:** The other night, in a dream, I said to Jack, "The word down here is the current leadership in Washington is screwing up badly." Jack replied, "Yeah, the word up here is your president is screwing up so bad he is even in danger of losing the 'dead vote.'"

**Jack on Wuhan Flu Test Kits:** "Dad, up here in Dog Heaven they are saying the United States government just paid a Communist Chinese company 1.3 Billion dollars to supply Wuhan Flu test kits." In my dream I replied, "Sadly it's true Jack; it's like paying the arsonist for helping to put out the fire."

JUST SAYING!

It seems that, in our retirement, Linda and I are simply not seeing old friends enough. Not only are we are busy every single day, but we are in Arizona quite a bit of the year. And now that I'm out of the business world it seems we just don't see everyone like we used to.

That is one reason I have been writing Crapper Chronicles for these past few years. It is a way for us to stay in touch with old friends and gives me an excuse to keep writing. I hope you enjoy it, but since some of the times I get toooooo opinionated, be sure and let me know if you want off the "Crapper" list.

By the same token, if you want to add someone to the list, just shoot me an email and I'll get it done. Richard Farnham of Farnham Associates on the Big Island of Hawaii does my layout work and makes sure my email list is kept secure.

## Book Reports:

**The Laptop from Hell - by Washington Post investigative journalist Miranda Devine:** This book is simply a riveting read into the probably sordid and massively illegal activities of the Biden family. Reading this book will leave you appalled, at not only the depth of corruption, but the apparent lack of accountability for it. It is sad commentary of how a family has put personal gain ahead of the best interests of our country, and shows in graphic detail the power of a corrupt media to squash any news item they deem detrimental to their socialist cause. A chilling read.

**Red Handed:** Another disturbing read by Peter Schweitzer. This book details how China has permeated our government at the highest levels by various means. This book is not simply a condemnation of Democrats, because several Republican legislators as well have been willing recipients of millions of dollars. Reading this book helps you understand the current “cancel culture” that huge corporations are employing to silence any disagreement with the Socialist agenda. This book is meticulously researched and is simply a must read for all United States citizens. On reading it, I wonder where are the rest of our legislators in dealing with this corruption? Are they too corrupted or do they fear “being cancelled?”

## Shorts

**The Real Washington Insurrectionists:** On 11/4/83 two women, Susan Rosenberg and Linda Evans, placed and detonated a bomb that tore through the 2nd floor of the United States Senate. They were convicted and sent to prison. At the request of Democrat Representative Jerry Nadler, President Bill Clinton, in his last few days in office, pardoned these two Socialist/Marxist terrorist operatives. Oh and by the way, until resigning recently, Susan Rosenberg sat on the Board of Directors of Black Lives Matter and was in charge of their fundraising. I'm sure her resignation had nothing to do with the fact that this is the same organization that seems unable to “account for” how \$60,000,000 of donated money was used. But wait, it appears one of these women has purchased millions of dollars of homes for herself and her relatives. Sure makes you wonder how much ‘black lives’ really matter to them, doesn't it?

**Recently overheard in a fancy Washington D.C. restaurant:** Waiter to 1st Lady: “What do you wish for your main course?” Her reply: “I'll have the filet mignon, medium.” Waiter: “What would you like for the vegetable?” Her reply: “He'll have the same.”

**Panic Phone Call From a Friend:** I recently got a call from a panic stricken friend of mine. He breathlessly exclaimed: “What should I do, my girlfriend just screamed that she missed me!” Not understanding why he sounded so upset, I remarked that that should be a good thing. My confusion was cleared up when he said: “Not this time; she is reloading!”

**National Felon League? (NFL):** Each year in the United States, over 75 police officers are killed in the line of duty. So who does the NFL pick to do the halftime show for this year's Super Bowl? None other than the cop-hating, rapper, Snoop Dog, and other like minded entertainers; who incidentally have made millions selling records with lyrics glorifying shooting “the cops.” Although I am not much of a football fan, I can understand people watching the Super Bowl. What I can't understand is the twisted logic of people watching a half time show that used the ‘F’ word 13 times, the ‘N’ word 16 times, and the MF word 4 times. Of course “bitch” was used 24 times and a graphic word for the female anatomy was used no less than three times. Folks, stop and think about this for a minute, would you? This program's viewership is primarily both white and black middle class American citizens. I have tons of respect for the black citizens of our great country. I simply cannot and will not believe they want black Americans to be viewed as people who would support such outright garbage. I also have a hard time stomaching the fact that this program had to be “pre approved” by the NFL's exalted leader, Roger Gödel, who just incidentally is paid a purported \$65,000,000 per year salary.

**Penzy's Goes Woke:** Unbelievable as it may seem, Bill Penzey, owner of Penzey spices, recently sent out an email describing Republicans as a bunch of racists who ran out and purchased guns on the chance they would get to shoot a black person. The email has since gone public, and who knows if the amount of customers lost is true or not, but it is reported Penzeys has, to date, lost over 40,000 customers. Make that 40,001! Linda and I dumped our Penzeys supply in the garbage as well. The good news is that we quickly replaced them with “non-woke” spices. The “non-woke” spices taste great, and the Penzey's should hit the landfill in Arizona by tomorrow afternoon.

**Airbnb Bans Conservative Speaker/Author:** Conservative author/speaker Michelle Malkin, in the course of her work, travels extensively and for years has utilized the services of Airbnb. However, she recently received a notice that she is not welcome at any of their venues any longer. Gee, the socialist agenda moves ever onward. Just to be certain Malkin got the message, the same message was also sent to her husband. Wake up folks, please; just maybe NOT in an Airbnb.

**Broken Crackers:** This is just an observation by me, but Nabisco Original Saltine crackers have been my favorite and were also Jack's favorite. In years past I can never remember any noticeable amount of broken crackers in the packages, but for the past two years, literally every box of Nabisco's I have purchased has many broken crackers. I don't know if this is some sort of espionage by, possibly, Zesta? But who knows, stranger things have happened. Bon Appetite!

**China and India Economies Exploding:** In recent years we have seen the economies of both China and India explode in size. Various reasons are given and especially, in the case of China, Socialism is often stated as China's great driver. However, the real reason is quite simple. Labor costs for oppressed poor workers, and in China's case, many times forced

or slave labor, is of course far cheaper. Also the fact that these countries have little or no worker protection for workplace injury or sickness, is a huge money saver. In either of these countries, as a worker, if you “call in sick,” you very well better BE SICK or you will be in huge trouble. A hangover, the fact you were “disrespected” by a co worker, or had some other real or imagined problem preventing you from coming to work, will simply not be tolerated in these countries. Don’t believe me? Read some damn books people! Try *We the Living* by Ayn Rand, or *Wild Swans* by Jung Chang. If you are going to argue about how damn great Socialism is, first try getting a bit educated on it.

**Judicial Appointments:** In 2005, then Senator Joe Biden filibustered repeatedly to prevent Janice Rogers Brown, a conservative black woman with an incredible and impeccable judicial background, from being appointed to the United States Circuit Court of Appeals. Now Biden is publically stating he will appoint a “black woman” as the next United States Supreme Court justice. Who knows if that person’s qualifications will be half as stellar as Brown’s were all those years ago.

**Leading Cause of Death:** According to CDC the drug Fentanyl is the leading cause of death in people ages 18-45, in the United States. The bulk of this drug is produced in China and comes into our country via the cartels, through Mexico. It seems unbelievable to any sane person that the current leadership in our country refuses to enforce our own border security to prevent this from happening and yet has sent troops and 13 billion dollars to Europe to defend the borders of a former communist country?

**Canadian Truckers Conclude Massive Scientific Experiment:** After two weeks of mass hugs, thousands of handshakes, and much “close proximity” of people, the following health information on this large group of people protesting insane masking and vaccination mandates, has been gleaned: New Wuhan Flu infections - 0. New Wuhan Flu hospitalizations - 0. Truckers in Ottawa hospital ICU’s - 0. Conclusion of the study? Somebody has been lying to all of us BIG TIME.

**Who is Financing Russia’s War on Ukraine?** Hard to say, but the United States buying over 250,000,000 barrels of oil from Russia last year, while we in the United States are sitting on an ocean of oil of our own, which our current idiots in Washington won’t allow us to drill, most certainly financed a huge part of it. Don’t you think?

**Department of Energy Quick Factoid:** The Department of Energy in the United States was created by the Carter administration for the express purpose of what? Yes Virginia, due to the oil crisis of the 1980’s this department was created to LESSEN OUR DEPENDENCE ON FOREIGN OIL. All those years ago, the United States was importing only 30% of its oil but, supposedly, the Department of Energy was going to fix all of that. What have been the results you say? Well, here we are over 30 years later, having found as a nation, that we are sitting on the largest oil reserves in the world. But, unbelievable as it may seem, the United States is now importing 70% of our oil!! Oh, and the Department of energy? Well, gee whiz, as of 2022 they have 16,000 employees, they have over 100,000 more contract employees, are burning through 242 BILLION dollars a year for a budget, and have accomplished what again? Apparently NOTHING! All we hear from our political appointees is “they are fighting for us.” I’m curious, why aren’t they?

## What You Hear v/s What You See:

**What You Hear:** Gas prices are insane and through the roof! A person can’t afford to drive to work!

**What you see:** The Phoenix metropolitan area has literally hundreds of busses driving around, EMPTY. And freeways are clogged with thousands of automobiles, most with only one person occupying the vehicle.

**Just a Thought:** A few years ago oil was also priced at over \$100 per barrel, and yet gas was priced around \$3.00. Then the price of a barrel of oil went down to nearly nothing. Many small oil producers went out of business. But strangely the price of gas at the pump remained nearly the same. Now when the price of oil goes over \$100 and we blame “Big Oil?” Bullshit! Have a talk with your local futures and hedge fund traders. Also, take a look at how much tax you are charged on each gallon of gas. Oh yeah, how about politicians who think importing oil from far away foreign countries is better than drilling our own oil, is a good idea. Wake up America! Our American oil producers are NOT the problem. They are the solution!

**What Do You Hear:** Food costs are insane and getting worse. A person cannot afford to eat.

**What Do You See:** Of course you can find high priced food to buy, you can pay through the roof for it if you wish, yet the the cost of an excellent pot roast is very reasonable. Vegetables are extremely reasonably priced, pasta is super cheap. And how about day old rotisserie chicken in every grocery store? Super cheap. It is totally doable to have a most excellent meal for two people for \$10. Linda and I have done it many times just to check this out. You think food is too high priced? Ask the folks in Ukraine who can’t get any.

**Just a Thought:** Try not to complain too much about the cost of food when your cupboard is full and you have a weight problem from overeating. Remember, if you buy Corn Flakes, it costs more for the cardboard box than the corn it takes to make them. Wake up America! The farmers are NOT the problem. They are the solution!

## Editorial: Socialism Shows it True Colors:

Unbelievable as it may seem, we actually have elected Congressional members who are members of, and enamored with, the failed oppressive Socialist/Communist political ideology. Of course, these talking heads tell you “their” brand of Socialism is the kinder, gentler, fair and equal, “Democratic” brand of Socialism. Yet, folks, read your history books! In every case when

## Old House - 09/30/99

The old house stood stark against the sky,  
As Linda and I were driving by.  
Old and weathered against the trees  
And yet still beautiful, it seemed to me.

And out of the day the voices came,  
Quietly seeping into my brain,  
To give me answers for the lonely scene,  
To change the outlook to happy from mean.

"We came to the plains in the flower of youth,"

"Our God and our strength, our only truths,"

"We worked our land from dawn till dark,"

"Our house was built and became our ark."

"The now-gray boards were straight and strong,  
Painted white and filled with song,"

"It housed our children and watched them go:  
New York, Minneapolis, Des Moines, Fargo."

"The house, the children, and the trees live on,  
While we, the pioneers, are gone,"  
"But while our bodies now turn to dust  
As even the strong old house soon must,

"Our souls yet feel as in our youth;  
Our God and our strength remain our truth."

"We constantly work from day to day;  
We may be near or far away."

"And as your life you live and your problems solve,  
When once in a while you need more resolve,  
When the load you have taken seems far too much,  
We'll be there to help you; we'll still be in touch."

"We can provide help if only you'll ask"

"And what's better yet, you'll accomplish the task"

"We're Angels, we're dreams, we're your best intuition."

"And the success of your life is our only mission."

"Till maybe one day, when your life is through,

If your trials, intentions, and endeavors were true,  
We can welcome you into our special fraternity  
To build and dream and help for eternity?"

this evil, failed, and murderous political doctrine first comes to town, it is always called "democratic" socialism. Yet, in the end, socialism always evolves into the failed Marxist/Communist doctrine, created by lunatics, that has killed and murdered millions of innocent people, who would not submit to this failed political pipe dream.

It will be interesting to see how the ignorant Socialist members of our Congress will try and explain away the fact that yes, once again, the Socialist/Communist bloc is busy killing and maiming everyone in Ukraine who disagrees with, again, being forced to be under the Socialist/Communist yoke. Every day, as the battles in Ukraine unfold, Socialism is expressing to the world how much it "loves" its people by using bombs, bullets, and rockets to "remind" people that they are not free to leave their "wonderful" Socialist/Communist ideology behind, and join the free world. If these people yet seek to exit the Socialist/Communist ideology they, like millions before them in Russia, China, and other Socialist/Communist countries around the world, will simply be killed. After seeing this murder being carried out in real time, can the Socialist politicians in America be so mind numbingly stupid that they continue to think Socialism is a fine ideology? Folks, you can fix about anything; but you can't fix stupid. Thank God, the bulk of our electorate is not as dumb as some of the people who have been appointed, fraudulently or not, to represent them.

**Another take on Socialist/Communist thought in America is this:** What is the reason, in our own country, for our political class to call a rally an "insurrection?" Why would our political leaders call a convoy of trucks protesting insane masking mandates a "national emergency?" The reason is this: By calling something an "insurrection" or a "national emergency," the citizens who are participating in these events get placed in the same category as an actual terrorist. The exact same treatment can be given them as would be given to a suicide boomer, the same treatment as those who planned the 9/11 attacks. Think about it folks. Somehow, the people who have burned countless cities around the United States, causing billions in economic loss, and actually caused the death of many people, are NOT being called terrorists, their murderous actions have NOT been categorized as an "insurrection" or "national emergency." Insane as it may sound, their murderous actions are being called "peaceful protests!" They are free to walk. Yet there are reportedly hundreds of people who attended the 1/6/21 political rally in Washington, DC, that are being imprisoned because that event was labeled by corrupt politicians as an "insurrection."

The organizers of that Rally had provably requested the capitol police and security to be heightened for that event. This request was also provably denied by the Congressional majority leader. Why? Because that person and her political handlers wanted this rally to become a riot, they wanted it to get out of hand. They wanted the adverse publicity to stain their political opponents. They distorted and politicized every aspect of this rally. They claimed law enforcement personnel were "murdered." This, again, is simply not true, the law enforcement officers who died shortly after this event had prior medical issues and one died of a massive stroke.

The only person who was shot and killed that day was an unarmed female Navy veteran, who was shot as she came into the capitol building. No one told her to "stop or I'll shoot." She received no warning. She was simply part of a group of people coming into the building and she was shot. I have seen the video. Don't you find the lack of accountability for her death a bit confusing in light of the outrage that was directed at a police officer in Minneapolis who was involved in the apprehension and eventual death of an "actual" criminal, with an exhaustive criminal record? The name of the capitol police officer who shot this innocent female Navy veteran yet remains a mystery. Odd this officer is so protected and unavailable.

Folks, if you don't want to see a "Ukraine" unfold in America real time, get out and vote these insane Socialist politicians out of office. Get your children into a school that is teaching the actual history of our great nation, not some Socialist inspired bullshit narrative that says our wonderful country is a repressive, horrible place to live. Wake up America before it is simply too late!

### Prayer Corner:

Linda and I have no doubt in the power of prayer. We have so many friends out there who are suffering from illness, and there is no doubt all of you Crapper readers do as well. If you could please take a moment to send a prayer skyward on their behalf, please do so. Our short list is Danny, Scotty, Konnie, Tom, Cab, and Craig.

*As always, I hope you enjoy reading this issue of the Crapper, and remember, we have our families, our friends, our health, and time.... The rest is simply smoke and mirrors!*
